DETAILED ACTION

Allowable Subject Matter

1. Claims 1-38 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-16 and 18-33:

None of the prior art of record teaches method and apparatus for controlling a device for performing an operation in response to a job ticket comprising the step of performing the operation using an optimal option of the set of device capabilities operations having a preferred set of scoring factors.

Claims 17:

None of the prior art of record teaches a method for controlling an electronic printer for performing a printing operation in response to a job ticket comprising the step for performing the print operation using an optimal option of the plurality of device capabilities options associated with a preferred score of the plurality of final scores.

Claims 34 and 35:

None of the prior art of record teaches a device for determining the device capabilities comprising a second data structure for defining a device capabilities option defined by a plurality of scored properties and sub properties nodes that are compared with the desired properties and sub properties of the job requirement data structure by traversing property and sub property modes of the second data structure and determining score for each of the nodes and thereby allowing an option score to be calculated.
